...We favor the admission of the territory of New Mexico, ...Wyoming, Idaho and Arizona to the enjoyment of self-government as states, ...such of them as are now qualified as ... ...soon as possible and the others as soon ... ...as they may become so.

...The political power of the Mormon ... ...church in the territories as exercised in ... ...the past is a menace to free institutions ... ...and too dangerous to be long suffered. ... ...Therefore we pledge the republican party ... ...to appropriate legislation asserting ... ...the sovereignty of the nation in all territories where the same is questioned, and ... ...in furtherance of that end to place upon ... ...the statute books legislation stringent ... ...enough to divorce the political from the ... ...ecclesiastical power, and thus stamp out ... ...the attendant wickedness of polygamy.

...The republican party is in favor of the ... ...use of both gold and silver as money, ...and condemns the policy of the democratic administration in its efforts to demonetize silver.

...We demand a reduction of letter postage to one cent per ounce.

...[illegible] the ballot where the citizen is the sovereign and the official the servant, where no power is exercised except by will of the people, it is important that the sovereign—the people—should possess intelligence and free schools as the promoter of that intelligence which is to preserve us as a free nation. Therefore, state or nation, or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good common school education.

...We earnestly recommend that prompt action be taken by congress to the enactment of such legislation as will best secure the rehabilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill, as calculated to work injustice to labor by lessening the wages of those engaged in preparing material, as well as those directly employed in our ship yards.

...We demand appropriations for the early rebuilding of our navy; for the construction of coast fortifications and modern ordnance and other approved modern means of defense, for the protection of our defenseless harbors and cities, for the payment of just pensions to our ... ...[illegible] ...necessary works of national importance in improvement of harbors and channels of internal, coast wise and foreign commerce, for the encouragement of the shipping interests of the Atlantic, Gulf and Pacific states, as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increase the security of our country, promote trade, open new and direct markets for our produce, and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of leaving the government's money without interest to "pet" banks.

...The conduct of foreign affairs by the present administration has been ridiculous by its inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by the republican administration for the removal of foreign burdens and restrictions upon our commerce, and for its extension into better markets, it has neither effected nor proposed any others in their stead. Professing adherence to the Monroe doctrine it has seen with idle complacency the extension of foreign influence in Central America and of foreign trade every where among our neighbors. It has refused to charter, sanction or encourage any American organization for construction of the Nicaragua canal, a work of vital importance to the maintenance of the Monroe doctrine and of our national influence in South and Central America necessary for the development of trade with South America and with the islands of the Pacific ocean.

...We condemn the present democratic administration [illegible] treatment of the fisheries question and its unjustifiable surrender of the essential privileges to which our fishing vessels are entitled on Canadian ports under the treaty of 1818, the reciprocal maritime legislation of 1830 and the comity of nations and which Canadian fishing vessels now enjoy in the ports of the United States. We condemn the policy of the present administration and the democratic majority in congress toward our fisheries as unfriendly and conspicuously unpatriotic, alike violating fraternal and noble national instincts and indispensable national defense against a for...

...The people of Alaska are entitled to the same civil and political rights as citizens of the United States. Immediate steps should be taken by congress to secure to them the same education of ... ...[illegible] ...protection ... ...which is accorded ... ...to the people of ... ...other territories. ...

...We favor the admission of the territory of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states, such of them as are now qualified as soon as possible and the others as soon as they may become so.

...The political power of the Mormon church in the territories as exercised in the past is a menace to free institutions and too dangerous to be long suffered. Therefore we pledge the republican party to appropriate legislation asserting the sovereignty of the nation in all territories where the same is questioned, and in furtherance of that end to place upon the statute books legislation stringent enough to divorce the political from the ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

Manager of the Gazette.

The local candidates put forward to [illegible] will Mayor Fitler does not get a quitter's [illegible] declaration. Depew is only in the race for a complimentary vote.

It is to be hoped that the last contest for the upholding of the unit rule has been made. The majority against it was overwhelming. The unit rule is opposed to republican principles and never should prevail in a republican convention. In the convention of 1880 the Sherman men voted against the unit rule. That they are for it now, does not show good politics.

Gresham is called the "tin pail" candidate. As the name is applied it is a very honorable one. As a general thing the workingman's favorite is not a man who inspires very much confidence or respect. He is chosen, usually, because he is a demagogue. But Gresham occupies an unique position. He is a man of sterling character and independence. He never varied a hair's breadth from his official duty to obtain popularity with any one. By his stern, unbending way of doing his duty, he has made formidable enemies. No nobler or truer leader could be selected. In the past, it has been pathetic to see the laboring man gather about leaders of no sincerity or honesty, who curry favor with them by making them believe in imaginary grievances and adding unnecessarily to their unrest. Gresham is an entirely different type of man. It is a matter of rejoicing that the laboring men should have had the sense and judgment to have chosen one so able, so true and so brave. Under the circumstances we therefore say the title "tin pail" candidate is an honorable one, both to the man who wears it, and the men who give it.

The republican platform is a disappointment. It is however large enough to hold all but Chinamen. It lacks the ring of the republican platforms of 1876 and 1880, or even that of 1884, when strong conviction of right and wrong prompted every utterance. The evident lack of conviction has changed a statement of principles into a long, special plea for the republican party and a severe arraignment of the democratic party. It has not the solid dignity of statesmanship, but the skillful pleading of a smart attorney. In some parts it is so manifestly unfair and tricky that it is almost an insult to the intelligence of the voters of this country. For example the plank on territories says, as a bit at Cleveland, that "all officers should be selected from the bona fide residents of the territory wherein they are to serve." This was never the policy of the party when in power. Regarding the admission of territories both parties act about the same. Colorado was admitted in 1876 because both parties expected the electoral vote. Political advantage has always been considered by the dominant party in admitting a territory to statehood. The plank favoring silver is right. But when it goes on to "condemn the policy of the democratic administration in its efforts to demonetize silver" it is absurd. Silver was demonetized by a republican congress. Since it was remonetized every republican administration has been hostile to it. These are facts that every intelligent man is possessed of. The first clause was sufficient and was a pledge for the nominee, even if he should be Sherman. The plank on "the rehabilitation of our American merchant marine" is much the same. The party did and could do nothing toward this in the twenty four years it was in power. It proposes no change of policy. The condemnation of the democratic administration in not taking hold of the Nicaragua canal is of the same kind. These platforms make one long for the dexterity of a Greeley, the statesmanship of a Lincoln and the conviction of a Sumner. The platform is of the same character as the St Louis one. It was not for this, but to state the belief of the party, but to catch votes.

But because the history of the republican party is behind this platform it has more of truth in it than the democratic platform. The planks in favor of human liberty, an indissoluble union of the states a free ballot and an honest count, a protective tariff and pure land for the settler all add to make the [illegible] of the party. It is because of these [illegible] that we cannot refrain from condemning the small politicians who thus belittle the party by insincere promises and by insincere condemnation.

Such a platform will not define the issues of the campaign. It will be questioned by the opposing parties and it will be argued for by its supporters all right in every respect, all question but it will be argued for by its supporters of the voter. The campaign [illegible] of 1884 will be a campaign of personalities. More than ever we shall [illegible] whose [illegible] of party [illegible] to the [illegible]

Chairman Skinner, of the sewerage committee and Consulting Engineer Lowrie left for Akron last night to inspect the pipe. A meeting of the board of trade committee on education and the arts was held yesterday morning to arrange for the proposed loan art exhibition. The committee decided to secure the high school building if possible, and to keep the exhibition open from July 15th to August 15th, Sunday included. A committee of ladies was appointed to collect the material for the exhibit, which will be accepted or rejected by a committee composed of Messrs L. R. Ehrich, T. C. Parrish and P. T. Lent. The proceeds of the exhibition will be applied to the "Bellevue Sanitarium fund." Further particulars regarding the exhibition will be published in a few days.

From present appearances the New Orleans excursionists will not visit this city and Manitou in a body, but will return separately.
